TO OUR NEIGHBORS

May & June, 1983, Vol. VIII, No. 3

Poly High Meeting

UCSF will hold a meeting in May to give residents in the neighborhood an opportunity to discuss the campus' planning efforts to lease the Poly High School site and develop badly needed, moderate cost housing with ample parking for students, staff and faculty.

The campus has been negotiating with the SF Unified School District to lease the site. Studies have been completed which indicate that such a project would be economically feasible, and could be developed in a manner that would complement community interests, depending on the design, according to Thomas W. Gwyn, assistant chancellor, Public Service Programs.

Gwyn also declared that an additional meeting will be held in May to discuss a proposed new Vision Research Laboratory building, which would be located on the west side of campus behind the new School of Dentistry building, as the first of the 2-3 modular research buildings listed in the campus' Long Range Development Plan.

In addition, the Campus Planning Committee will meet in May to review the development plan, Gwyn declared.

At the time of this writing exact dates and times for these meetings have not been set.

For further information on these meetings look for announcements posted in the neighborhood and on campus, or call 666-3206.

Child Care/Study Center Fund Raiser

Neighbors are invited to attend the first 1983 fund raising benefit of the "Friends of the UCSF Study Center for Child Care," to be held at the home of UCSF Chancellor Emeritus and Mrs. Francis A. Sooy on Thursday, May 5, from 5:30 to 7:30 p.m.

Tickets for the cocktail/buffet event are $100 and can be obtained through Compass Associates at 929-1417.

People can become a sponsor for a $250 donation and a benefactor for a $500 donation. Donations of any size can be sent to: Mrs. Howard C. Naffziger, UCSF Study Center for Child Care, c/o Compass Associates, 1832 Buchanan Street, Suite 203, SF, CA 94115.

The "Friends" has raised more than $15,000 for the Child Care Center, since the group's inception last year.

Blood Donation Day May 9

The neighborhood is invited to participate in the next campus blood donation day on Monday, May 9. Blood may be given in the main lounge of Millberry Union, 500 Parnassus Avenue, from 8 a.m. to 3 p.m., and on the mezzanine level of the School of Nursing building, (enter through 521 Parnassus Avenue), from 11 a.m. to 5:30 p.m. Appointments may be made by contacting the Moffitt Blood Bank at 666-4013, or donors may visit either location at their convenience. Donors are asked to bring personal identification.

The Alumni Association of UCSF has again donated a raffle prize of a $35 gift certificate at the Washington Square Bar & Grill. The restaurant has matched the donation with a second $35 gift certificate. Donors should deposit their receipts at either site to be eligible for the drawing.

Street Cleaning Update

Representatives from the neighborhood and the campus attended a public meeting in April to discuss the mechanical street cleaning program put into effect in March by the SF Department of Public Works.

Most of those in attendance were opposed to the program and made a number of suggestions, including eliminating the program entirely. San Francisco officials said they would look into the possibility of changing the days and times of the street cleaning.

Individuals who have opinions on the program should contact Norman Bray, Public Works Official, 460 McAllister St., SF, CA 94102 or call 558-3371.

New Radiation Oncology Pavilion Dedicated

The new Walter A. Haas, Jr., Radiation Oncology Pavilion in the new Long Hospital was formally dedicated in early March.

The pavilion, under the direction of Theodore Phillips, MD, is one of the most sophisticated and technologically advanced cancer treatment facilities in the western US, with the capacity to treat 2,000 patients a year.

The pavilion is named for Walter A. Haas, Jr., the well-known Bay Area business and civic leader, in appreciation of funds provided by the Evelyn and Walter A. Haas, Jr. Fund. A noted philanthropist, Haas has supported a number of other programs at UCSF, including the Child Care/Study Center and the Psychiatry Department's Infant-Parent Program at SFGH.

New Nutrition Seminar Series

A series of nutrition seminars designed by UCSF staff for Bay Area physicians, nurses, dietitians and nutritionists has started at San Francisco General Hospital. The series is sponsored by the Bay Area Human Nutrition Center, which is affiliated with UCSF and UC-Berkeley, and is directed by Norman Kretchmer, MD, PhD.

Entitled "Nutrition and Health in Human Populations," the seminars are free and will take place on alternate Fridays from noon to 1:30 p.m. at SFGH in Room 4H2.

Topics for the next three months are:

- May 13: Hyperlipoproteinemia and Atherosclerosis.
- May 27: Culture Change: Its Importance in Health Research and Practice.
- June 10: Dietary Habits and Nutritional Problems During Pregnancy.
- June 24: Interplay Between Genes and Culture in Human Evolution.
- July 8: Current Thoughts on the Role of Dietary Factors in Hypertension.
- July 22: The Relationship Between Infection, Nutritional Status and Growth in Infants.

For further information call 821-8982.

Break the Habit

Smokers between the ages of 21 and 55 who want to break the habit are invited to participate in the UCSF Habit Abatement Clinic's free stop-smoking program. Participants at the UCSF clinic attend intensive sessions during the first three weeks of treatment. Their progress is followed for the next year with sessions on a regular but less intensive schedule. Participants pay a refundable fee of $75.

Supported by the National Institute of Drug Abuse, the clinic's overall success rate is usually 90 percent after the first three weeks of treatment, according to Sharon Hall, PhD, director of the clinic.

The researchers/therapists use two treatment approaches in the clinic—behavioral counseling and the use of a nicotine-based chewing gum to help smokers with the physical withdrawal from cigarettes.

The Habit Abatement Clinic is now accepting applicants excluding pregnant women, persons with heart or lung disease, stomach ulcers or high blood pressure. At the present time there is no waiting list. Day and evening sessions are available. For further information call 681-8080, extension 453.

UCSF/Hawthorne Health Fair

Some 150 people participated in a series of special activities at a health fair in April, designed to familiarize children with the experience of going to the hospital. The fair was co-sponsored by UCSF and Hawthorne Elementary School at 23rd Street and Shotwell.

The theme for the fair was "Preventive Health for Children." It included children's activities and a health education program for parents, presented by pediatric nursing staff and Child Life Services staff from UCSF Hospitals and Clinics.

Children's events included hearing and vision tests, a puppet therapy performance in which puppets enacted the steps involved in going to the hospital for diagnosis and treatment, and a slide show about hospitals.

The programs for parents covered physical fitness and cardiovascular health, health rights of children and parents, safety in the home, accident prevention and visiting the doctor or hospital.
